

The purpose of Rainbow maths is to improve the children's rapid recall of the four operations when applied to basic mathematical questions.

## Elements Stages

Addition and subtraction

<b>Fire</b>	adding and subtracting
<b>Air</b>	adding and subtracting
<b>Earth</b>	adding and subtracting
<b>Water</b>	adding and subtracting

## Rainbow Stages

Multiplication and division

<b>Red</b>	multiplying
<b>Orange</b>	multiplying
<b>Yellow</b>	multiplying
<b>Green</b>	multiplying
<b>Blue</b>	multiplying
<b>Indigo</b>	dividing
<b>Violet</b>	dividing

## Award Stages

Division and decimals

<b>Bronze</b>	dividing and multiplying
<b>Silver</b>	dividing
<b>Gold</b>	dividing decimals
<b>Platinum</b>	dividing decimals
<b>Kryptonite</b>	Converting decimals

The children spend 10 minutes each day working through their colour card. Everyone starts the year at lowest part of the scale (Fire or Red depending on your focus). When a child can successfully answer all 50 questions correctly within 4 minutes every day for a week then can then move up a colour. When they get to the end of the stages (Water, Violet or Kryptonite) they can either go on to the next Group of Stages or restart depending on the focus of learning (addition and subtraction or multiplication and division).

Each year, the children start back at Fire or Red regardless of their ability.
